

Product Features

- The light source adopts the imported tungsten halogen lamp, has long lifetime and high photovoltaic conversion ratio, is not easy to be aged and convenient for change. It adopts the internationally popular bi-direction rotary lamp, can effectively increase the availability of the light source.
- The lampshade is made from high quality polycarbonate material with high rigidity.
- The surface of the lampshade has been plated with protective hard coat. The color is bright and not easy to fade.
- The light adopts the international most advanced transmission structure, it has low abrasion and low noise.

Product Specification

Model	TBD-V0R3	Size(mm)	600×345×200	Main light	Halogen(H3)
Configuration	3Bidirectoinal rotator	Meas(mm)	670×490×235	Base	Aluminum
Frequency	60-150(n/min)	Voltage	DC12/24	Dome	PC
Intensity of illumination	≥800(cd)	Current	9A	Color	Red/Blue/Yellow Transparent
Power	105W	Weight	19kg	Speaker	N/A
